Please see class descriptions for information about each class offered and any accompanying materials fee.
Class fees cover supplemental materials for classroom use.

K5 Class Descriptions

Language Arts (K5)

From the publisher (A Beka): "Each class day will begin with devotions and prayer. This class is structured as a basic phonics reading program, in which children actually read twelve small books in the set. Also included is a phonics blend and word review book for reinforcement at home by parents. Students learn and review vowel sounds, blends, one-and-two consonant words, words with special sounds, and sentence comprehension. Handwriting and Bible will be included in this course."

Math-General (K5)

From the publisher (A Beka): "Build students' early math skills with Numbers Skills K: Arithmetic. This full-color book reinforces number concepts through 100, simple addition and subtraction combinations, telling time, number sequences, number words, skip counting, and working with money. "

Science / Social Studies (K5)

From the publisher (A Beka): "Inspire young students to go out and explore their world as they learn how science gives glory to a Creator God. This K5 Kindergarten grade curriculum helps students explore the world around them. This curriculum focuses upon the weather, seasons, seeds, animals, and the seashore. Students will "visit" different environments, observing plants and animals from a Christian perspective."
